| 2021 – 2022    | <b>GCE O\L</b><br><i>Ananda College</i><br>Passed With A2 B3 C4                                               | Colombo - 10 |

### 📁 Projects

#### Dunhinda Lanka Web Application (On Going)

React (Vite), Tailwind CSS, React Router DOM, Component-based architecture

**Description:** A modern **React + Vite web application** for a bottled water company, designed to showcase products, services, and company information.

#### Travel Management System

*TravelEase*

Core PHP, PostgreSQL, JavaScript, Tailwind CSS, HTML, CSS, XAMPP

##### Description:

- Designed and implemented a role-based booking system
- Built authentication, payment flow, and dashboards
- Applied database design and backend logic using PHP & PostgreSQL

#### Construction Website

*HTML, CSS, JavaScript, PHP, Postgresql*

Strengthened online presence for a construction business.

**Description:** Developed a construction company website to showcase services, projects, and company profile.

#### Bake House Website

*HTML, CSS, JavaScript*

Built a clean and attractive UI for customer engagement.

**Description:** Created a frontend website for a bakery to display products, offers, and business details.

#### Hospital Management System

*HTML, CSS, JavaScript*

Improved user-friendly access to hospital information.

**Description:** Designed and developed a responsive hospital website to provide information about services, doctors, and contact details.

## Neuro Calm

IoT-Based Stress Relief Therapy System

**Description:** Developed IoT system with ESP32 to monitor heart rate and deliver frequency-based therapy, with a real-time web dashboard.

## Research & Publications

---

### IoT-Based System for Stress Detection and Relief Through Therapeutic Frequency

Present and Published at JASPER 2025 - Research Symposium of Lanka Nippon BizTech Institute

Designed and implemented an ESP32-based IoT system for real-time stress detection using heart rate variability and body temperature, delivering therapeutic frequency-based feedback.

## Awards

---

Completing Basics of Computer Networking

## Technical Skills

---

### Programming & Development

- C / C++
- C#
- Python
- Java
- JavaScript
- Data Structures & Algorithms
- Object-Oriented Programming

### Tools & Technologies

- Git & GitHub
- VS Code

### Databases

- MySQL
- PostgreSQL
- MongoDB

### Web Development

- HTML5, CSS3
- React.js
- Node.js
- Responsive Web Design

### Mobile Development

- Android Studio
- Flutter

## Skills

---

Teamwork

Time Management

Leadership

Creativity

Effective Communication

Critical Thinking

## Languages

---

• Sinhala

• English

• Japanese
